

## Key Skills Work Pack Pricing Structure

---

The Key Skills Work Pack can be purchased in four different pricing categories, depending on the size of your organisation.

For smaller organisations, the pay as you go option allows you to buy one tutor license per apprenticeship level and individual candidate licenses as they are required. This option is ideal for organisations with a small number of candidates or who are in the early stages of teaching Key Skills.

The three tiered pricing options allow you to purchase one tutor license and a certain number of candidate licenses as a package, allowing you to purchase the appropriate number of candidate licenses for the size of your organisation. This option is available for 'up to 49', '50 to 99' or '100 plus' candidates.

The table below explains the different pricing options, the level at which they apply and the price.
